<b>Office Action Summary</b>	<b>Application No.</b> 10/748,864	<b>Applicant(s)</b> LEWIS, RICHARD P.	
	<b>Examiner</b> Frederick C. Nicolas	<b>Art Unit</b> 3754	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 3,5 are objected to because of the following informalities: please replace the pronoun "it" as recited in lines 2 and 3 to the correct claimed limitation. Claim 5, line 2, "a" should be --an--. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

I- Claim 4 recites the limitation "the outside" in line 3. There is insufficient antecedent basis for this limitation in the claim.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1,5,7-11,17-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Sayers et al. 7,028,861.

Sayers et al. disclose an electronic self contained viscous liquid dispenser (col. 1, ll. 7-12), which comprises a housing (102) defining an internal liquid reservoir (110), the housing including a front surface (106) having an opening therethrough adjacent a bottom surface of the reservoir; a dispensing pump mechanism (114) carried by the housing and disposed in liquid communication with the reservoir, the pump mechanism having a delivery end (116) disposed for delivering metered doses of viscous liquid from the reservoir; a mounting assembly (104) configured for mounting on a supporting wall structure (col. 5, ll. 26-28), the housing with internal liquid reservoir and dispensing pump mechanism being completely removable from and replaceable relative to the mounting assembly, when attached to the mounting assembly, the housing defining a front visible surface of the dispenser as seen in Figure 3; an electronic actuating mechanism (151) carried by the mounting assembly and comprising a motor driven actuator (150) that engages with the pump mechanism upon insertion of the housing into the mounting assembly; a motor (154) and associated power supply circuitry carried by the mounting assembly, the motor in driving engagement with the motor driven actuator; and wherein the dispensing pump mechanism is movable in a horizontal direction relative to the housing for actuation thereof, the motor driven actuator comprising a member slidable in a horizontal path to engage and move said dispensing pump mechanism to a dispensing position (col. 6, ll. 30-35), a battery power supply carried by the mounting assembly (col. 4, ll. 53-56), a sensor (col. 6, ll. 12-36).

***Allowable Subject Matter***

6. Claims 2-4,6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

7. Applicant's arguments filed 1/9/2008 have been fully considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
